

## FAMILY AND COMPANION POLICY

If you prefer to accompany your child during his/her dental appointment, it is our policy that **only the child receiving dental treatment and one accompanying adult** be present during the examination and/or treatment.

For the safety of your child and other patients, **children are not allowed to be left unattended in the waiting room** or in the examination and/or treatment area.

We ask that you carefully watch your children to prevent any safety issues and avoid disturbing other patients and families. Responsibility for the child's behavior and safety rest with the parent or attending adult. Renton Kids Dentistry's staff cannot provide child care services or supervision of children.
